9:00 AM—2:30 PM

Understanding and Navigating Church Size and Life Cycle

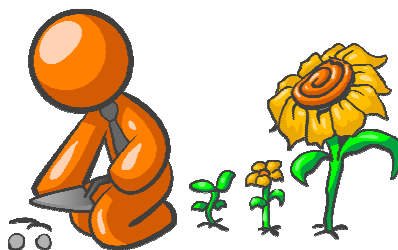

Each church is unique based on its size, age, context and culture. Leading, relating, organizing, and decision making is different for each church. Smart leaders understand church size characteristics, diagnose the congregation's place in the Life Cycle ... and lead accordingly. In this workshop you will learn the unique characteristics of your church size, where your church is on its life cycle and what you can do to lead toward greater church health and effectiveness.
